HUIQI ZHOU

SOFTWARE ENGINEER

PORTFOLIO

http://huiqizhou.com

Developer

Designer   Innovator

INTRODUCTION

· A full-stack web developer in training at DigitalCrafts, an immersive coding school, with both front-end and back-end developing skills.
· A freelance graphic designer with 9 years of experience in designing a variety of visual materials.
· An insightful innovator who holds a unique perspective on literature, art, anthropology, and multi-cultural communication.

FEATURED PROJECTS

· **Gourmate** | **http://gourmate.huiqizhou.com (individual)**
  GitHub: https://github.com/blancazhq/gourmate
  -Full-stack food-sharing web application built with React and Redux
  -Functionality includes meal searching, user authentication, meal requesting and approving, messaging within the app, and making payment
  -Uses elements of React, Redux, Node.js, Express and PostgreSQL
· **Smarta** | **http://marta.huiqizhou.com (group)**
  GitHub: https://github.com/dc-feb-2017-cohort/AHAI
  -A web app that displays businesses along the entire Marta bus or train route or near a specific stop in either map or table view
  -My role in this group project included most of the front-end design and programming, and part of the back-end data manipulation
  -Built using HTML, CSS, Handlebars, Node.js, Express and PostgreSQL
· **Languagefacts** | **https://www.npmjs.com/package/languagefacts (individual)**
  GitHub: https://github.com/blancazhq/language_facts
  -A promise-style Node.js module that fetches facts about spoken languages as well as the language composition of most countries
  -Data is dynamically pulled from Wikipedia tables, showcasing my ability to manage complicated datasets, higher order functions and recursions
  -Built with Node.js, Bluebird, Fuse.js and Lodash

EXPERIENCE

· **Freelance Designer and Artist (2008-present)**
- designed cover and typesetting of a published Chinese textbook
- designed a multitude of posters, brochures, invitation, postcards, and flyers
- gave presentations and lectures on design
· **Chinese-English Interpreter (2015-2017)**
- interpret consecutively in various subjects including government, insurance, finance, law enforcement, business, 911, court, etc.
- developed strong problem-solving skills through daily interactions with a diverse clientele
· **College-level Chinese instructor (2010-2015)**
- taught all levels of Chinese classes to college students
- developed teaching and training ability and analytical and critical thinking

EDUCATION

DigitalCrafts
(Immersive coding school)
2017 - Current

Indiana University
(MA in Chinese literature)
2012 - 2017

Beijing Language and Culture University
(BA in Chinese education)
2008 - 2012

SKILLSET

FRONT END:	BACK END:	DESIGN:	LANGUAGE:
HTML	Node.js	Photoshop	English
CSS	Express	Illustrator	Chinese
JavaScript	PostgreSQL	InDesign	
Bootstrap			
Vue.js			
React
